6 Watchtowers Sudoku

[39 points]

Apply classic sudoku rules. A digit N in a grey cell represents a watchtower, that can overlook exactly N cells, including itself, with digits smaller than N in all four directions up to the first larger digit in that direction. All possible watchtowers are given.

10 Even Sandwich Sudoku

[56 points]

Apply classic sudoku rules. The clues outside the grid indicate all digits (not necessarily in the given order) which have two even digits as immediate neighbours in the corresponding row or column. If a digit is not clued outside the grid, then its two immediate neighbours in that row or column must not both be even.
